

Katalia Care delivers **hospital-grade clinical nursing** in the homes of NDIS participants across metropolitan Melbourne. Every visit is carried out by an AHPRA-registered Registered Nurse, coordinated with each participant's GP, allied health team, support coordinator, and family. We accept self-managed and plan-managed participants, acknowledge every referral within one business day, and aim to complete an initial assessment within 48 hours.

Meet Kayleigh

Clinical Lead and Registered Nurse

Over seven years of acute hospital experience at Austin Health and St Vincent's Melbourne, brought into the homes of NDIS participants. Kayleigh oversees every care plan so the clinical standard stays consistent across each visit.

CLINICAL SKILLS

Patient assessment, medication administration (oral and IV), wound care, cannulation, infection control, and care planning across multidisciplinary teams.

Clinical assessment and care planning

Holistic health reviews aligned to NDIS goals, coordinated with allied health.

Post-hospital discharge support

Transition home, clinical follow-ups, wound reviews, and discharge plan liaison.

Why Katalia Care

- **AHPRA-registered RNs only.** Every visit is delivered by a Registered Nurse, never delegated down.
- **Continuity of nurse.** The same nurse stays with a participant wherever clinically possible.
- **Hospital-grade standards.** Austin Health and St Vincent's acute experience, brought into the community.
- **Prompt referral response.** Every referral is acknowledged within one business day.
- **Fully screened team.** NDIS Worker Screening, Working with Children Check, First Aid and CPR.
- **Coordinated care.** We work alongside GPs, allied health, plan managers, and families.
